

About the team

The community Infection Prevention and Control Team are part of your Public Health Service in Calderdale. We work in close partnership with the local hospital, community care services - Quest Matrons, District Nurses, and GP colleagues to support the prevention and control of infection in Calderdale.

Lead IPC Practitioner (current vacancy)

Sandra Beaumont – IPC Adviser

Sandra has been a part of the team since 2006, supporting all providers with Investigations & Outbreak and Audits management. Sandra has a particular interest in the care environment.

Debra Rodgers – Public Health

Debra has been with the team since 2014 and is essential for the smooth running and organisation of the service. Debra is the key contact for event and meeting management – if you have any queries contact Debra.
